PROFESSIONAL EXPERIENCE

UI/UX Designer
Ernst & Young LLP | 2022 - Present

- Worked as UX designer for a Workforce Management Application.
- Analysed the user pain points and vulnerabilities and designed a user friendly app within a month given the requirements and timeframe adhering with the company theme.
- I was the only designer in the team hence was responsible for creation of user persona, wireframes and high fidelity prototypes.
- Helped in the modification of front end using React and Material UI

Project Management Officer
Ernst & Young LLP | Client : IDFC

- Managed calendars, scheduled appointments, and arranged meetings and conferences
- Provided timely BOT Status reports
- Handled confidential documents and maintained their proper organization
- Effective mangement and utilisation of company resources
- Forecast capacity vs. demand to identify shortfall or excesses of the resources

Software Developer
Ernst & Young LLP | Client : Morgan Stanley

- Assisted the leads in creation of springboot application
- Was responsible for identifying the API endpoints
- Created endpoints using Springboot
- Tested the API'S using Postman
